Reflections on Value Education	“Transforming Teacher Education in changing Scenario” Twenty-first century publications, patiala ISBN: 978-93-85447-65-5	In Today’s era of competition and survival we observe laxity in moral values. Industrialisation has led to the emergence of high life style and raised the standard of living of people. It has made man rich in materialistic sense but deteriorated the ethical finer in the society. People crave for money, power and pelf. Value Education prevents violations and abuses of human rights. Over the generation values provided foundation for social peace at national and international level.
Life Skills- Key to Face Challenges	Teacher Education in 21st Century(Vol-3), New Dehli Publishers ISBN: 978-93-85503-33-7	The abilities that help to promote mental wellbeing and competence in individuals as they face the realities of life are known as life skills. Effective acquisition and application of life skills can influence the way one feels about ourselves and others and equally influence the way we are perceived by others. It contributes to the perception of self-confidence and self-esteem. Teachers plays significant role in promoting healthy life skills among students.
Teachers in Inclusive Education	Indian Journal of Psychometry and Education(IJPE) Vol. 47(2) A Biannual Interdisciplinary Peer Reviewed Referred Research Journal, ISSN- 0378-1003	Inclusive Education means welcoming all children, without discrimination, into regular or ordinary schools. Teacher plays significant in the successfulness of Inclusive Education. So, teacher competency is an important in determining success or failure of such programs. Teacher competency is the ability to plan control and facilitate interaction in the classroom that is appropriate to the activity and which takes into account the different needs and abilities of learners.

Role of School in Promoting Wellness	Psycho-Lingua, A Half yearly Referred and Peer Reviewed Journal, Vol. 46(1) January,2016 ISSN:03773132	In this fast changing world of industrialisation and globalisation, to all of us are getting affected by stress and strain. Students are not even spared from the ugly clutches of stress. Parental expectations, teachers' assignments , pollution, overcrowding, adulteration, admissions and examinations etc. take a heavy toll on them. As a result they suffer from many problems like depression, fear, anxiety, school phobia etc. School counselling maybe used to ensure well being. Good health among students cane promoted through regular parent-meetings, yogic exercises and recreation during leisure time. Timely pycho-educational testing and interventions, parental as well as teachers care and concern, go a long way in making students happy, hearty, healthy and emotionally stable and secured.
Role of ICT in Education	Book-Quality Enhancement in Educational Institutions , ISBN:-978-85447-68-6	The 21st Century is the age of ICT. A remarkable trend in the field of education during the last few decades all over the globe has been the use of ICT in making education productive , giving instruction a more powerful and scientific base, extending the educational opportunities to the masses and creating a new learning environment and information rich society. Wider availability of the best practices and the best courses material in education, which can be shared by means of ICT in educational which have to be mitigated.
